## Education

**Universidad Militar Nueva Granada**  
Class 2022  
Bogotá, Colombia

**Instituto Tecnico Industrial Centro Don Bosco**

Class 2014  
Bogotá, Colombia

## Experience

### Software Engineer - Akorbi

January 2023 - Currently

As a Software Engineer, I have worked in the development of a scheduling platform, focusing mainly as a front-end developer using React. During this period, I have managed to create innovative solutions for the company through the use of new technologies, which has significantly improved performance and efficiency in the assignment of interpretations. My focus on continuous improvement and implementation of software solutions has been fundamental to optimize processes and maximize the company's results.

### Software Developer - TICSOCIAL

July 2022 - December 2022

As a Software Developer, I created with the team solutions for healthcare companies and EPS in Colombia, focusing on the creation of a patient management platform with React JS for the front-end and Django for the back-end. In addition, I have used Docker and Python to facilitate deployment and improve efficiency in the management of interpretations and medical appointments. My work has contributed to optimize medical care and improve resource allocation, providing effective and reliable solutions.

### Software Developer - Accenture

Janury 2022 - July 2022

Data migration, extraction, transformation into PostgreSQL and data loading, modification and cleansing for optimal migration to SAP IS-U, also process automation with BASH-Scripting

## Skills

### Professionals

Teamwork  
Problem Solving  
Leadership  
Creativity

### Techniques

JavaScript  
React JS  
Python  
TypeScript  
Git  
GraphQL  
Node JS  
Django  
Next JS  
SQL

## Languages

**Spanish** 🇪🇸 - Native  
**English** 🇺🇸 - Advanced Conversational
